

# Tactical Decision Game Scenario

- It's 1am on a midnight walk
- ~200 walkers, all ages, including prams & wheelchairs
- Last walker just passed M1, who has been stood down
- Medical cover from two cycle responders.
  - One is at M3
  - Other is at start/finish with flat tyre
- M2 has previously reported that he's at a very busy junction with poor signage
- M2 helped at another event early this morning
- At 00:57, a message from M2 to Control said that a runner was looking very tired
- At 00:59, M2 has reported that someone told him that a walker has collapsed by the river. M2 has offered to go to investigate
