

## Tactical Decision Exercise 2

- It's the end of a cycle race, at about 15:00
- There has not been a sweep car beyond M4 (route is believed clear to M4)
- The track through the forest is unsuitable for cars
- Four cyclists, who are all local and who may have been cycling as a group, have been reported missing by a family member at the finish
- M1 is still in position
- M2 has gone to T/T to help them pack up
- M3 is helping M4 pack up, then both will head back to Control
- M5 has stood down and is heading home southbound.
